

ANOTHER  
LIFE

Adventures

AFTER  
EARTH

By | Ahmed Hatem

# Ch.1

In year 2387, Palestine came back to the Muslims and there was an enormous war between The USA and The European Union with the help of Egypt which ended with the victory for The European Union. After 13 years from that, the sky became dark, no sun, no plants and no animals. The earth was damaged by an enormous tornado and the pollution. For the good luck, scientists knew that would happen from about 7 years before the damage and they found a new planet like the earth it called **Adeo**, which was a small planet with the same weather of the earth. Scientists ordered all people to quit the earth and go to live on Adeo to be safe. But, the earth was damaged before all people go to Adeo, about 3 billions of people was killed on the earth when it damaged. Now, I live on Adeo with my family and friends. People now are about 50 billions person. People learned from the dark past as they were the main reason for the damage of the earth. The pollution that they made by factories and cars damaged the earth and caused the tornado in the ocean and destroyed the land so, there is no place to live no land and no life.

After that, we shouldn't forget what happened on the earth as we don't have any another planet to live on. So, we should be careful as there is no room for mistakes. After settling down on Adeo scientists decided that they will do their best to keep people safe. So, they said that there won't be factories or cars which work with oil but only by electric energy and solar power and who burn paper or pollute the environment will be punished and the president will send him to the prison.

So, the planet is safe and clean and all people live on it without diseases or starvation as farmers use the old kinds of farming tools and without any pesticide or insecticide to keep the soil safe and to save people from any new diseases. When we were in 3050, there were many new things that weren't on the earth, people brought seeds from the earth and they planted it.

Now, people don't eat anything except vegetables and fruits. There are cars and factories work with electric only, there is no countries, there is one place, one president and there is no wars or soldiers. There are prisons, police and judge to punish anyone makes any mistake, and there are many sky scrapers to live in. My home is in 21 dime street it isn't large but it is good to live in; there are no large houses as the planet is small.

My name is **Tack** and I am 32 years old, I will tell you about Adeo and the life on it. The president is called **clef**, he is a strong, brave and honest man. **Jacky**, his advisor, who was his old friend. **Dina**, his servant. And I am the son of the president but I live in a house far from the palace to be free and now I will start the story.

I decided to go to the jungle, when I arrived there I saw a strange thing I saw it runs very fast it was thin and tall, I saw its shelter. so, I entered it and saw him, he was a strange person, he wasn't a human or an animal, he was speaking to me but I didn't understand him it was a strange language. I can speak in Arabic, French, German and English, which is my mother tongue. However, he could not speak anyone of them but only a strange language, I sat down and tried to understand. I found his family around me and they were strange People, I can say that they were the native citizens of Adeo and I called their language **Adeus**. I started to learn their language and after a year, I was good in that language. I understood that they were the native citizens of Adeo. After that, he became my friend, I promised him not to tell anyone about them, and I went back home...

I was excited when I came back to my home and I sat down on a chair and started to think, who are these people? How are they the native citizens of Adeo and what happened when we came here? They were strange people with a round silver face, black eyes, small mouth, tall and thin body. They may have the same body of my robot but they have blood and brain but on the other hand my robot is a machine without feelings or brain, but only the same body of them. I did not say anything about them to anyone I know for two reasons: the first, if I told anyone he would say that I am mad, and the second, they would be in danger if I told anyone about them as all of people would want to see them and might kill them or make them as lab rats. After a week I visited them again to know more about them, their history, the past of them, their religion and why did they in the jungle not with us in houses. My mind was very busy with questions and when I arrived I knocked the wooden door of their shelter and the man opened to me. I entered and sat down and they gave me a strange juice it's taste was good I drank the juice and asked the man about their history he said: "we are the robots which people sent from the earth to Adeo from about 60 years to discover it ... but there was a red insect which entered our body and changed us to living creatures with blood and brain". Then, I asked him about his age, he said that he does not know it because he was a robot without brain to know anything but they might have 59 or 60 years on Adeo. At last, I asked him about the reason for living in a shelter. He said that they didn't live in a shelter but in a cave and its door is in the shelter to be safe and there is a secret tunnel under the ground with a strong door. When he said that I thanked him and I started to stand up but I felt dizzy.....

What happened? What is that? Where am I? Strange dark place, I can't see anything. Is there anyone here? I heard a strange voice, he said: "shut up your mouth or I will hurt you ". I asked him: " who are you? Where am I ?" , he said: " I said SHUT UP YOUR MOUTH but if you want to know I will tell you , I am your conscience or you can say that I am your soul ". " What do you want

from me?". He said: "you must tell people about the shelter of the silver man and his family as they are very serious risk. So, you must be ready for any bad thing from them, from now they are your enemies ... ”.

I wake up; I was on the same chair that I drank the juice on. I had to decide what I would do... Will I tell my father about that strange family? Will I escape from that case? Will I tell the man that I must tell my father? Will I trust my soul? I am tired I can't think, I can't stand up, I tried and tried many times to stand up but without any feasibility. I thought and decided to tell my father but I would not make him attack them, we would make defenses only.

I took my decision and went to my father and I told him everything about them. I will not tell you what he made with me when he knew them. He made me in the palace with him. However, he started to make a strong army, which was the first army on Adeo and ordered them to be ready for anything but he did not tell them who the enemy was or anything about them. So, the soldiers were very cautious.

My father asked me to visit the silver family as I don't know anything about their bad plan, I visited them and played with them and taught them many things that they did not know. The days passed very quickly and one day while I was sleeping I heard sound like a bomb, I was afraid and ran to see what happened .....\*.

## Ch.2

I heard a strange sound like the sound of bomb, I went very fast with fear to my father and asked him about what happened and he said " it is the sign of war with silver man's kind". I was surprised when I saw a strong army on Adeo our army and the enemy's army. Two strong armies!! What is that? It was the first time for me to see a war, I was born in 3020 it was the first war I see but what will I do? It was a war between two armies. Who will win? The war started and enemy's soldiers were stronger from us and we saw that there is no way to escape from the war we don't have any another place to live. That was the most danger war for people, it is live or death war.

The two armies clashed and the war continued for 6 hours at the end we won and conquered them but we lost lots of soldiers in that war as well we will not see them anymore again. There will not be silver man or his type. I am sad and happy in the same time, I am sad as I don't have friends now but I am happy as we will be safe without enemies. I went to the shelter and entered the cave with two soldiers and when I entered, the door was closed. we became frightened from that. But I started to walk in it until I reached the end of the tunnel. There was a thin air I couldn't take my breath well. I ran to reach the door and when I reached it, I found it closed and tried to open it. Finally I opened it and found a great place which was a green garden with a golden palace, golden seats, tables and lots of jewelries. I entered and saw everything there and planned to make it my golden palace. I decided to buy everything I want and buy servants and guards and make my own country but I remembered that money will be finished one day and I need love to have the

two Important things in life; money and love. Then, I planned to get married. I remembered that I don't know a polite beautiful girl to get married. I asked my father to find a polite girl for me and told him that I have my palace, money, guards and I want to make a family. About two weeks passed like a day and my father sent me a message I opened it and I found that it says: " my dear, I found a polite girl for you , she is 25 years old and her name is Maria , come to me when you read the message as I want to speak with you.. " .

I was very happy to know that and I wore my coat and went to my father's palace. "My son, I know that you are happy but you should know that I am ill and I might be died in any time. So, I will tell you something to find happiness, don't make your wife sad and don't ask her what she can't do, if you do it, you will be happy with your wife.." "ok, dad I want to know everything about her, please" "my son, I will tell you about her, she is 25 years old and her name is Maria, she is polite and beautiful girl, her father is a doctor and he was born in Russia..." "Great dad, I want to see that girl" "ok, I will speak with her father for you and I will tell you when I find a new thing" "thank you dad.." .

I went to my palace and remembered the silver man and what happened for him and remembered the new door which I made for the palace instead of the door which was at the end of the tunnel. After a week I went to my father to see him, when I arrived I saw my father in a bad situation, he was very ill, I entered his room and sat down in front of his bed "how are you dad?" "I don't know if I will live more but you must be the president from now" "no, dad what about my brother? He is older than me and he must be.." "Please, Tack do what I say, you are more wise than him and you will be a brave, clever president" "ok, dad" "Maria's father will be here soon. So, meet him and speak with him about his daughter" "ok, dad, don't tire yourself" "Now, go and prepare yourself and wait him" "thanks dad ..."

I went to prepare myself and waited the man then I heard noise. "Tack, your dad died..." "What? Do you know what you say, Dina?" "yes, sir

come here fast, please" I ran, went down stairs and went to the room. He was killed not dead, he ate poisonous food, I called his doctor and the police to know what happened to my father.

When the police came the detective **kina** asked all people in the palace and asked the chef who cooked the food, no one was in the place of that crime, no person of the citizens know that the president was killed "sir Tack, no evidence and no one committed that crime, what can I do?" "Nothing until now? What do you do as a detective? My father was killed and you took five hours until now, what did you do in those five hours?" "Sorry sir I was searching for the killer and the poison but no new thing" "Go away from here, useless man...". I didn't know what should I do, my father died and his will to me was: "Be the president, Tack".

I sent to my brother and tell him our father's will and waited until he came to me. "Tack, you know that I am the older brother and I know our father's will as you must be the president but, what about me? Where should I live if you became the president?" "ROBERT, what is your problem? That is my father's will and I will be the president".

I left him in the room and went to see Jacky to know his opinion...

"sir Tack, don't be angry with your brother as he want to be the president because he is the older but he should know that no rook to discuss that thing, you and I can't change your father's will, I think that your father wanted that because you are wise and strict".

"Ok Jacky I will try to persuade him as I don't want a problem with my brother".
